Board Director Candidates

Amy Lee

Faculty of Business & Information Technology Board Director Candidate

Biography

My name is Amy Lee, I am a second year Networking & IT Security student that is passionate about making your ideas a reality and ensuring that your voice is heard. I aim to foster growth between and within the Business and IT faculty by encouraging collaboration and innovation. I am currently the Chief Technology Officer of BITSoc, and I want to continue being part of the growth in the FBIT community by expanding our ideas on a larger scale. I aim to leverage my skills and connections that I have made with the students in our faculty, to adopt open communication and unity. I will ensure that your suggestions are considered, and provide open communication among our faculty and the OTSU Board. Let's Foster Growth Together!

Campaign Platform

"Fostering Growth Together."

I aim to improve communication among FBIT students, and our faculties. As the FBIT Board Director, I plan to achieve this goal by providing open communication for students in our faculty and the OTSU Board. I will foster growth and unity between and within the Business and IT Community by listening and acting upon students' feedback and making their ideas a reality. In addition, I will be active in the community and represent all FBIT programs at a Board level. I am looking forward to Fostering Growth Together.

James Lisondra

Faculty of Science Board Director Candidate

Biography

For far too long, your academic journey has been clouded by uncertainties due to the pandemic; yet, I am certain that the Faculty of Science deserves representation that will champion:

- PROFESSIONAL SCHOOL SUPPORT: I seek to undercut the costs of applications and MCAT/DAT/OAT prep, and connect students to volunteer, employment, and scholarship opportunities.
- IMPROVED CO-OP + NETWORKING: I will establish sessions with corporations, researchers, and alumni, and push for greater investments into our science co-op program.
- EQUITABILITY & ACCESSIBILITY: I will actively promote the benefits of recorded lectures and create unique spaces for Black, Indigenous, and minority voices in STEM.

Together, we can become One Science, One Faculty.

Campaign Platform

"One Science, One Faculty."

Whether you're in computer science, forensic science, life science and more, together we can become One Science, One Faculty. Now more than ever, it's time that science students are equipped with every single resource to get ahead. If I'm elected as Director, we'll fight for an equitable, accessible, and united faculty that provides enhanced professional school support, and more networking sessions with professionals and corporations. In addition, I'll advocate for your academic success by garnering insight into student's views on recorded lectures and our current student co-op. Vote JAMES LISONDRA for Director of the Faculty of Science!

Angela Karimzad

VP Student Life Candidate

Biography

Hello! My name is Angela Karimzad. I am running for Vice President of Student Life with goals to enhance the student experience at OTU. I'm a peer leader, ambassador and social media coordinator for Islamic Relief OTU. My experiences have allowed me to see where the services provided by the OTSU need to be improved. My goal is to create a stronger community and more opportunities to get involved so students can make memories and get their money's worth despite the challenges posed by COVID-19. I want students to feel like they have built skills and relationships that will prepare them for the 'real world', all while having fun. I'm passionate and confident that I can make your time at OTU an experience you won't forget!

Campaign Platform

"Connect, Innovate, Reminisce."

I'm here to #bethechange to your concerns. I want to provide in person and online opportunities for students to get involved and feel more comfortable and connected to each other and the campus community. By coming up with new innovative ideas, we can work past the COVID restrictions, all to give you opportunities to make memories, get support, get your money's worth and have the best university experience! The services offered to students are amazing! But they can definitely be modified to help satisfy students' needs a little better such as the health and dental plan and resources for clubs and societies.

Meaghan Good

VP Student Life Candidate

Biography

My name is Meaghan Good and I am currently a third-year Technology Management (IT) student at Ontario Tech University. For the past three years I have been a part of multiple clubs and societies on campus. Some of them being: Business and IT Student Society (Associate Communications Officer – 2020/2021 and Chief Communications Officer – Present), Women in IT (Advisor – 2020/2021 and President – Present), and Co-Founder and Co-President of Technology Management Student Association.

Campaign Platform

"Connecting Communities."

Events, workshops, clubs and societies are the heart and soul of the student experience at Ontario Tech. These communities help us find our hobbies, our friends, and our careers. I want to help you discover your hobbies, make and find your forever friends, and excel your careers at and outside of Ontario Tech. By working with clubs and societies I believe I can make your experience at OTU even better! Growing Clubs and Societies. If you have been an executive or a volunteer in a club or society we know that when planning multiple events it can take a lot of financial strain on whether you are or are not going to the event due to lack of funds. I want to help change that. By talking to the OTSU administration I want to help bring back the OTSU Grant Funding. This funding will allow clubs and societies to go through an application process to request a specific amount of funding to help you run an event. Let us help you! Support Students. The OTSU has multiple services that YOU could and should access. The system can often be confusing and overwhelming. The services span everything from Mental Health Wellness to Grade Appeal, Esports, Tax Clinic and more. I believe one of my roles is to help and facilitate your access to your voice if and when you need it. You have a Voice and you're NOT alone!
