

# Science Board Director Candidates

**Maryam Baz** 

Science Board Director Candidate

## Candidate Platform

Hi OTU, my name is Maryam Baz, and I'm currently in my second year of the Integrated Mathematics and Computer Science program at Ontario Tech University. A little bit about me: I have hands-on experience working with student clubs here at Ontario Tech. Outside of school, I enjoy tackling technical challenges, collaborating on entrepreneurial initiatives, and contributing to student projects. Oh, and I absolutely love ducks and baby fluffy cows! 😊 I'm excited to run for the Board of Directors to uphold policies, ensure accountability, and encourage student participation. I hope this year brings not only meaningful work within our board but also opportunities for students to unite and create positive change!
